

Not everyone has the chance to study at our decanting site, but all can now own a collectible from this special period of our school's history.

This new collection of school souvenirs elicits fond memories of the Sponsored Walk and the Famine Lunch with lively illustrations. Capturing our transformation from Robinson Road to Sham Shui Po, the collectibles embody our solidarity in the face of challenges posed by the redevelopment project, making them unique as keepsakes and gifts.

These mementos are jointly designed by our students and the founder of Chocolate Rain, Miss Prudence Mak. In addition to being a new fund-raising drive, the artistic collaboration aims at inspiring students to pursue their dreams.

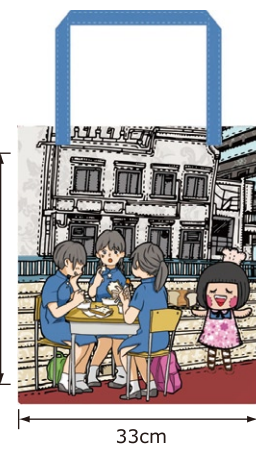

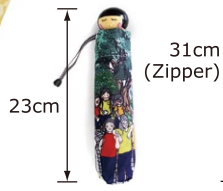

Don't miss the chance to share our vision to build a school of the future.
