Thank you

The School would like to express our heartfelt thanks for the overwhelmingly positive and warm responses of the community and the media coverage on the outstanding achievements of our graduate **Tsang Tsz Kwan** in the recent HKDSE. The public's high recognition of Tsz Kwan's admirable efforts and success has been most spirit-lifting not only to Tsz Kwan but also to our entire dedicated team of teaching staff.

Providing quality education to young women from all walks regardless of their backgrounds has been the founding mission of Ying Wa Girls' School. Thus, offering education opportunities for students especially those with special needs is indeed an integral part of our mission. In making this achievable, we appreciate fully the indispensable support of the public in addition to that of the government.

The achievements of Tsz Kwan has demonstrated clearly the kind of collaboration we need from all sectors of our society in bringing out the best of our young, some of whom might have been born with certain disabilities. Tsz Kwan's determination and perseverance are no doubt critical to her admirable achievements today. At the same time, the School is very grateful for the constant and unfailing professional support of the Ebenezer School, in particular their resources teachers. Without their hard work, we would never have been able to achieve the mission impossible.

We would also like to take this opportunity to also congratulate on the steadfast and loving dedication of many of those who have been working quietly in their various ways to nurture our young people, the future and pillar of our society.

We are very much touched by the community responses in donation support for Tsz Kwan's long-term educational needs. A special fund will be set up for Tsz Kwan for that purpose. Interested parties can send in cheque payable to "**The IMC of Ying Wa Girls' School**" with donor's information. Official receipts will be issued. The donation collected will be solely used to support Tsz Kwan's post secondary education. For any enquiries, please call the School Office (2546-3151).
